Greetings from the Elders,

A pleasant good morning to all! We're glad that you are here. If you are visiting this morning we want you to know that we are very glad that you are here and encourage you to join with us as we worship God in spirit and truth. Please come back any and all times that you can.

In the Hospital

It is nice that none of our members are in the hospital today (that I am aware of)**Don Gerber, Kathleen Holter, and Sandy Collins** all got discharged last week and are now recovering at home. Please check in on them when you can. Life is full of ups and downs. Just as these are getting better, **Shirley Cooper** got word that he has significant cancer to deal with. He will start radiation treatments on Monday and then chemotherapy beginning on Tuesday. Please keep all in your thoughts and prayers.

Guyana Update

With some travel delays, the team made it to Kwakwani about 5pm on Wednesday. The trail was bad from all the recent rainfall they have been having. Because of the rain and mud they have not been able to walk about the village as normal. None the less they still have been able to have a few bible studies and have already had 2 respond by being baptized into CHRIST. Robin said that the flies are particularly bad this trip. Their work is just beginning. This coming week they will be busy in the morning with bible classes for all and then the nightly campaign at three different locations throughout the village. Please continue to pray for their success and safety. Thanks again for all the support you give.

Hawaii Update

Mike and Tammy Sanders are enjoying the island living but are having trouble finding a congregation to worship with. They are currently on the big island of Hawaii and are planning to move to a smaller island, Kauai, to meet up with a small group of Christians there. Please pray for them as they search for a faithful congregation.

*Watch, stand fast in the faith,
be brave, be strong.*

Let all that you do be done with love. 1Co 16:13-14

Have a good week
In Him

Charlie
